Career Objective

Motivated Information Science Engineering student with knowledge of Java, Python, and C, seeking opportunities to develop technical skills.
Eager to gain practical experience and contribute to innovative software projects.

Education

B.E.	Adichunchanagiri Institute of Technology (AIT)	**8.2 CGPA**
12th / PUC	Government PU College, Chikkamagaluru	**83%**
10th / SSLC	UGHS, Belavadi	**89%**

Technical Skills

Programming:	Java, Python, C
Tools:	GitHub, Excel

Projects

1. Government Hospital Management

- Developed a system to manage hospital information such as patient and doctor records efficiently.
- The project helps organize hospital data and improve accessibility of information.

2. Smart Farm Guard System

- Developed a smart system to detect animal movement near agricultural fields using sensors and a microcontroller.
- The system generates an alert when animal movement is detected, helping to protect crops.

Certification

- Python Certification
